PROFESSIONAL SUMMARY

High-achieving Software Engineering student with proven leadership in university tech societies.

Hands-on experience in full-stack development, AI-powered platforms, real-time systems, and cyber security awareness.

President – CyberSphere (2024–2025)

Current President – Riphah Computing Society (2026–2027).

Passionate about building meaningful technology solutions and fostering student innovation.

EDUCATION

BS Software Engineering 2023 – 2027 Riphah International University, Islamabad CGPA: 3.94 / 4.0

Intermediate in Computer Science 2020 – 2023 Bahria College, Rawalpindi

LEADERSHIP & POSITIONS

President – Riphah Computing Society 2026 – 2027 (Current) Riphah International University

- Leading university-wide computing initiatives and student engagement
- Conducted a hackathon under this society.

President – Riphah CyberSphere 2024 – 2025 Riphah International University

- Organized **Online Coding Competition**
- Delivered technical webinars and **cyber security awareness sessions**
- Designed and hosted *Escape 404* – interactive tech event
- Managing strategy, partnerships, and community building
- Received **Appreciation Award** for outstanding leadership

Data & Record Manager Artificial Intelligence Community of Pakistan

- Managed structured records, event documentation, and coordination

KEY PROJECTS

Redesigned PIMS Website Ongoing Pakistan Institute of Medical Sciences (PIMS) Modern full-stack redesign with improved UI/UX, responsiveness, and patient-focused features using MERN stack / React Native elements

Parwarish – AI-Powered Community Platform Runner-Up at Parwaz-e-Takhayul (GDG FAST + NIC) Culturally-aware AI platform promoting value-driven youth interaction

SMART Goal Management System (SLP) – In Testing SMART-based goal tracker with progress visualization and accountability features

Drowsiness Detection System In Development Python real-time fatigue detection using facial landmarks and eye tracking

Student Portal (Java + MySQL) Migrated legacy file-based system to MySQL • Built AdminCourses module (Java Swing)

CraveKart – Online Food Delivery System UML Use Case diagrams modeling actors, workflows, and business logic

Swift-Scan A completely working platform for new developers to understand others codes and repositories. it takes a github link and explain the code, and also generates a setup guide.

EXPERIENCE

Full Stack Mobile App Developer Research Collaboration – In Testing Developed mobile application supporting Speech and Language Pathology therapists at Riphah International University.

Website Developer Elysian Clinic – Ongoing Developing modern, responsive full-stack website

Competition Head CLC Conference Managed arts, essay, photography, poster, and painting competitions

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C, C++

Web Development: MERN Stack (MongoDB, Express, React, Node.js)

Mobile Development: React Native

UI/UX Design: Figma

Other Competencies: Leadership, Problem Solving, Presentation, Time Management, Data Management, Cyber Security Awareness
